Try for \$5/month

the kaia chain will initially launch on top of the klaytn network. Therefore, KLAY holders will not need to perform a separate token swap, but FNSA holders will need to swap to KAIA tokens. The token swap will be available through the Kaia Portal, built by the Kaia Foundation and available at the same time as the Kaia Chain launch. In this guide, you'll learn how to swap FNSA tokens on the Finschia chain for KAIA tokens on the Kaia chain ahead of the new chain launch.

Prerequisites

For the purposes of this guide, “swap” refers to the ability to swap FNSA on the Finschia chain for KAIA tokens on the Kaia chain. Once the swap is completed on Finschia, the KAIA tokens will be transferred to the Kaia chain via a bridge provided by the Kaia Portal. While the process involves both chains, the Kaia Portal simplifies performing all swaps on a single webpage.

illustrative purposes only, and some UI and UX changes may occur after the official launch.

1. Access the Kaia Portal.
2. Connect the wallet that holds your FNSA.
3. Enter the address of the recipient account on the Kaia mainnet where you want to store your KAIA tokens.
 - We recommend that you pre-set the wallet to receive KAIA token by referring to the supported wallets listed in this guide.
4. Enter the quantity of FNSA to be swapped.
 - Once the swap is complete, it is irreversible. We recommend that you confirm and enter the correct quantity.
5. Request the swap.
 - There is a waiting period before the swap is finalized. This is to allow time to react in case of unusual circumstances. A latency of a few tens of

exchange amount are pre-recorded in Finschia Genesis.

When KAIA tokens are moved from the Finschia chain to the Kaia chain, the bridge is responsible for checking the integrity of the token movement request. During this process, the KAIA tokens are temporarily locked on the bridge, and if the check completes successfully, they are moved to the user's designated wallet on the Kaia chain.

FAQ

- Is Kaia Portal secure?
- Kaia Portal is official infrastructure provided by the Kaia Foundation.
- The Finschia Foundation and Klaytn are conducting joint development and testing over the coming months to provide a stable and complete

- In order for the service to operate reliably, we need to take measures to prevent and respond to contingencies such as malicious use. To this end, we may introduce a minimum default transfer delay.
- In this case, users will receive KAIA token after that time has elapsed when executing a swap. Other detailed operational policies will be announced at a later date.
- **Can I use KAIA token on the Finschia mainnet?**
- In principle, KAIA is only distributed on the Kaia Mainnet. We will announce the use of KAIA token on the Finschia Mainnet at a later date.
- **Swap Service Operators**
- We recommend that you only run swaps through the Kaia Portal, which is officially provided by the Kaia Foundation. Please note that the Foundation is not responsible for any other methods used.
- ~~How is the swap process carried out if I hold ENSA tokens on an~~
